

DIN11864

The DIN11864 fitting is a relatively new sanitary fitting. The concept of this fitting is based on controlled compression. It is impossible to over compress the Rubber O-ring inside.

The DIN11864 is available in 3 versions:
 DIN11864-1 with treaded Nut - DIN11864-2 with bolted Flange - DIN11864-3 with Tri-Clamp
